

JQ-SC06 Dining Chair Installation Instructions

Installation Notes:

- 1. Before installation, check the package for severe deformation or damage.
Do not install products that have been damaged during shipping or storage.
- 2. Handle the product with care when unpacking to avoid dents or scratches, and check that all installation accessories are included in the box.
- 3. Please read this manual carefully before installation and follow the instructions when installing.
- 4. Do not use excessive force during installation, as this may cause the product to become dented or scratched, or may strip the screw threads.

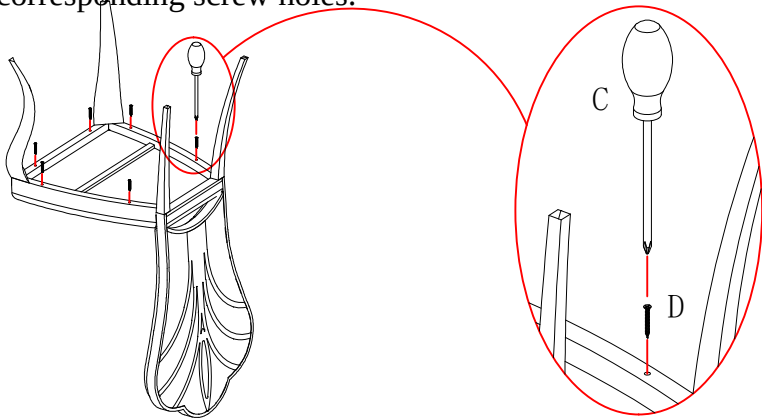

NO.	name of parts	QTY	Spec.	Sample
A	Dining chair	1		
B	seat cushion	1		
C	Phillips screwdriver	1		
D	Fiber nail	6	M3. 5*40mm	

Step 1 : Remove the dining chair, chair cushion, and screws from the box. Also, have a Phillips-head screwdriver ready, and begin assembly as shown in the illustration below.

Step 2:

Turn the dining chair and seat cover inside out, place the seat cover on the chair frame, and screw the screws into the corresponding screw holes.

Step 3:

After tightening the screws on the bottom of the high chair seat cushion, flip the high chair over again to complete the installation.
